

Astronomy & Astrophysics

Speaker: Emily Cunningham

Emily Cunningham is a 3rd year PhD student in the Astronomy & Astrophysics department at UC Santa Cruz. Originally from New York City, Emily received her B.S. in Physics & Astronomy from Haverford College in 2012, and was a Fulbright scholar in Paris, France from 2012-2013. Emily will explain how she became interested in astronomy, and how she arrived at the decision to pursue astronomy as a professional career. She will discuss the benefits and downsides of pursuing a graduate degree in the sciences. She will also touch on the big questions that motivate her as a scientist, and describe what she does on a daily basis in order to answer these questions.

Attorney at Law

Speaker: Amber Booker

Amber Booker is a third year attorney, practicing law in the fields of estate planning and trust administration. She received her B.S. in pre-law at Santa Clara University in 2010, and her law degree from Santa Clara University School of Law in 2013, graduating with top percentage honors. Since starting law school, she has worked in a broad range of exciting practice areas, including; criminal law, employment law, and municipal government law. Today Amber is an associate attorney at an established estate planning firm. She provides legal advice and assistance to individuals and families regarding their wills, living trusts, and other legal documents to help communicate their wishes upon death or incapacity. She also advises trustees in administering trusts, and petitions the court in order to uphold a decedent's wishes.

Business Development - Sales & Marketing

Speaker: Nico Moe

After college I completed 2 years of active-duty service in the army (working in a Korean-language translator program), and immediately after, went in to Marketing working for a large PR firm in San Francisco. After brief stint there, I was invited to join a startup TechValidate in 2013 as sales-guy #9, and have been helping agile start-ups reach revenue goals since then.

Career Paths

Speaker: Harold Grey

Harold Grey LCSW works as a psychiatric social worker for Kaiser Permanente in Santa Clara, where he assesses and treats adult patients with a wide range of mental health issues. Prior to that, he provided mental health treatment to children and adolescents at a non-profit agency in Campbell. Originally from New York City, Harold moved to California in 1999 to work as a product manager at Adobe Systems, where he was responsible for developing the company's international library of digital fonts. Harold graduated from Brooklyn College with a bachelor's degree in English and then graduated from San Jose State University with a master's degree in social work. He will be talking about the concept of a "career path" and about being open to the planned and unplanned twists and turns in one's career.

Studying Abroad Opportunities and How Global Education Influences Careers

Speaker: Holly Manie Oskoi

Holly is a Community Outreach Specialist at AFS.org, a program that provides direct global education and promotes intercultural understanding as a way to promote world peace. Holly is former high school AFS exchange students to Thailand and knows firsthand the value of a study abroad experience: intercultural learning, global competency, language proficiency, and college and career benefits. Studying abroad lead her to a career in emergency management and later into the nonprofit field. If you want to hear opportunities for you to experience culture exchange and how exchange has impacted Holly and other AFS students education and careers, come to this presentation.

The Non-Profit World & Philanthropy in Business

Speaker: Megan Wagner / Palmrya Pawlik

Megan will be joining us via video conference. She represents Motorola Mobility and will share about the work of the Motorola Foundation. She will share more about working in the nonprofit world and how philanthropy helps to drive and engage business.

Megan Wagner is currently the Program Manager for the Motorola Mobility Foundation. The Motorola Mobility Foundation seeks to catalyze the innovative use of technology to improve lives and communities. We do this by leveraging employee expertise and talent, providing funding, and partnering with nonprofits, learning institutions, startups, government, corporate and civic organizations. In her current role she manages employee volunteer opportunities and special programs. Megan graduated Phi Beta Kappa from Boston College with a degree in Sociology and Business Management.
