

Wireless Product Development

Speaker: Varada Gopalakrishnan

I'm a Senior Principal Engineer in Amazon Lab126. I am a Wireless Communication Engineer. I'm involved in architecting, designing and developing wireless products in Amazon Lab126. I've played key role in the development of Amazon Kindle, Amazon Fire TV, Amazon Fire Phone and many other consumer electronic products. Prior to joining Amazon, I was in Motorola, in Illinois, where I developed several generations of cell phones.
